Discover the easy way to hear better with digital technology

WHEN TALKING ONE-ON-ONE

WHEN DINING OR IN MEETINGS

WHEN WATCHING TV

WHEN DRIVING

How it works

Maxi´s built-in microphone picks up and amplifies sounds using digital technology. You hear the sounds through headphones, earphones or a neck loop.

Maxi also has a built-in telecoil that works with inductive loop systems that are common in public areas.

Headphones - for easy use

Stereo headphones with superior sound quality. The headphones are easy to use and have a robust and attractive design. *Model: BE9122*

Earphones - for a discrete look

Stereo earphones with excellent sound. Light comfortable earphones that are easy to use. *Model: BE9124*

Neck loop - for your hearing aid

The neck loop sends sound to hearing aids equipped with a telecoil. Put Maxi close to a speaker or connect it to the TV with the cable kit. Maxi works as a remote amplified microphone and makes the sound clearer. *Model: BE9128*

Cable Kit - for HiFi TV sound

Use the cable kit to connect your Maxi to the TV and enjoy high quality sound in full stereo.

If you push the M-button while listening, you can also hear people talking without removing your listening device. *Model: BE9126*

External Microphone
For meetings and easy TV-listening

Specifically developed for Maxi as an easy-to-setup hearing solution in mono. Place the microphone close to the TV's loudspeaker. The external microphone can also be used at dinners and conferences to improve hearing. *Model: BE9127*

Discover Bellman® Audio Maxi

Superior sound

Do you remember the old cassette tapes? Along with the music came unwanted noise and complicated handling. The sound technology in Maxi, however, is fully digital and uses the same technology as found in modern CD/DVD players. As a result, Maxi has crystal clear sound and can be used for hours without you growing tired of it.

Easy to use

Maxi is exceptionally user friendly. Its shape fits nicely on the table or in your hand, and the rubberized material makes it easy to grip. The controls are simple to use, even for those with impaired vision or dexterity problems.

High quality

Maxi is designed by Bellman & Symfon of Sweden and comes with a two-year warranty.

Swedish hearing solutions for everyday life

For 20 years, Bellman & Symfon of Sweden has worked hard to improve the quality of life for those with hearing deficiencies. The Bellman Audio series comprises solutions that have been thoroughly researched and developed in close collaboration with audiologists, users and leading design experts. This guarantees great sound quality and unparalleled ease of use of our products.

The easy way to hear better

Are these situations familiar?

Having difficulty hearing?

When talking one-on-one?
Do you find it hard to follow a conversation when chatting with a friend or relative?

When dining or in meetings?
Do you have trouble hearing what is being said at family dinners or get-togethers?

When watching television?
Do you miss words when you watch TV at normal volume?

When driving?
Do you find it hard to hear in a noisy environment, for instance, in your car?
